Pray for Friends and Family of Tabitha, Who Died Recently

"Tabitha," the only Christian in an unreached area of Myanmar, died recently after Buddhists attacked her home. She had served faithfully for seven years and seen little fruit from her work. Finally, during the past year, 12 Buddhists had accepted Christ and been baptized. Local Buddhists took notice of these conversions, and Tabitha told Christian leaders that she was under surveillance. The night before her death, her home was surrounded by radical Buddhists carrying sticks. "She was only 32, and the official cause of death was a heart attack," a VOM contact said. "It is unclear whether her heart attack was natural, aggravated by this traumatic event, brought on by poison or something else." Pray for the new believers who were under her leadership as well as others mourning her loss.
